Jennifer,

You are not going to be getting an email from the NEPA workflow indicating that the SPR Leased Workover Rig & Workover Services is approved and completed. The workflow threw an unrecoverable exception because I use the entered title as the generated pdf files name, and SharePoint interprets an ampersand (&) as a query string parameter. Sorry that I have not had time to implement the bug fix on the NEPA where there needs to be a validation rule keeping the Title from accepting special characters.

Thanks,
Melanie
